

# Auralite-23

*A New Stone of The New Consciousness*

by Robert Simmons

I was recently made aware of the discovery of some powerful and beautiful crystals from the Boreal forest of the Canadian Shield, far north of Lake Superior. The stones appear to be primarily composed of Amethyst, but they contain a wealth of other minerals as well. Their discoverer has named them Auralite. As with the mineral known as Super-Seven, there is a unique synergy of energies in Auralite-23.

Auralite-23 crystals are more than 1.5 billion years old, having been formed during the Meso-proterozoic age, at the time when multicellular creatures first emerged and began to flourish. It has been suggested that meteoric impacts during this time brought rare metallic ores to the surface, where they eventually dissolved and were incorporated into the structure of the growing Amethyst crystal now called Auralite. The elements identified by assays using x-ray diffraction include the following 35, present in various samples: Ag, Au, Al, Ba, Be, Bi, Ca, Cd, Co, Cr, Cu, Fe, Hg, K, La, Mg, Mn, Mo, Na, N, P, Pd, Pb, S, Sb, Sc, Sr, Th, Ti, Tl, U, V, W, Zn, Zr.

The crystals themselves are structured layers of phantomed chevrons composed of three base three quartz species, Amethyst, Citrine and a rare form of metamict green quartz. The mineral compounds they contain reportedly include are Titanite, Cacoxenite, Lepidocrosite, Ajoite, Hematite, Magnetite, Pyrite, Goethite, Pyrolusite, Gold, Silver, Platinum, Nickel, Copper, Iron, Limonite, Sphalerite, Covellite, Chalcopyrite, Gialite, Epidote, Bornite and Rutile. (The name Auralite-23 denotes that the average specimen contains at least seventeen of these twenty-three minerals.)

When I sat down to meditate with two crystals of Auralite-23, I was surprised by the sheer volume of energy coming from them. They are much stronger than regular Amethyst! When a stone is held at the crown chakra, its pulsations move fully through the brain, activating both the crown and third eye. They engender sensations of peace and tranquility in the mind, and bring into one's awareness a sense of being in the presence of the sacred. They remind one of the sacred nature of one's own consciousness, and they bring a quality of inner focus that facilitates deep meditation. The mind is quieted and calmed, the emotional body is stilled and the Liquid Crystal Body Matrix is attuned to its Divine Blueprint. When one holds one of these stones at the crown chakra and a second one at the heart, a powerful circuit is created, helping to integrate heart awareness with one's usual sense of self.

Auralite-23 stimulates higher awareness and telepathic connection with one's guides and guardian spirits. It offers a direct and immediate link to what is called the "Magic Presence" in esoteric literature, the Self beyond the everyday "I" that knows one's life pattern and destiny, and which can help one live one's life as an expression of one's true spiritual purpose. In the poetic mystical tradition, this aspect of oneself is so different that it seems like a Divine being beyond oneself was known as the Beloved of the Soul. Union with the Beloved was fervently sought by many spiritual aspirants. The connection facilitated by Auralite-23

is to that Higher Self, and although it does not guarantee full union without one's own efforts, it does give offer an energetic link which greatly assists one's journey to the Divine within.

The link Auralite provides to higher realms can instigate a process of inner purification. Those willing to receive this stone's blessings are inwardly "inspected" and cleansed of various inner knots of negative fixation. The felt sense of this can seem like a dissolving of one's cares and worries, release of patterns of anxiety, resentment, judgement, depression and defeat. As this dissolution occurs, one feels an upliftment of one's spirit and an awakening to the potentialities for a new life. This rising of optimism and new hope is felt all the way into one's cellular consciousness. The body itself is awed and made reverent by the clearing of the veils of illusion and the dawning of the presence of one's true self, one's Higher Self.

Other effects of Auralite-23 can include an increase of one's psychic sensitivity, enhanced insight into truth, disappearance of chronic problems with the body, a balanced awakening of kundalini, an awareness of the "eternal now", spontaneous visions of future events, enhanced capacity for soul travel and lucid dreaming, and experiences with Angels.

As a stone of the Divine Blueprint, Auralite-23 makes an excellent stone tool for spiritual healing. It can be applied to any area of the body in order to rebalance and heal through the re-installation of one's Pattern of Perfection.

Auralite-23 reminds the body, on a cellular level, of its proper vital function. As such, this is a stone of regeneration and rejuvenation. On the emotional level, peace and widened awareness facilitated by Auralite-23 can clear many triggers and snags that cripple the emotional body. This stone also helps heal the soul through facilitating remembrance of past lives and stimulating the insight needed to release karmic patterns.

Auralite-23 encourages one to recognize the blessings of one's life in relationship with the world. It encourages one to meet each moment of experience with the positive intention to bless the world with one's own love and self-giving. This Activity of Blessing is the essence of the New Consciousness, and is at the core of Auralite's nature. I hope those who acquire it will allow themselves to be awakened to this new and sacred way of being.

Auralite works most harmoniously with all forms of Azeztulite, as well as Rosophia. Its protective and purifying qualities are enhanced by Guardianite. Using Auralite-23 in conjunction

with Mystic Merlinite will enhance one's potential to magically transform oneself and to make positive magic in the mundane world. Master Shamanite aids both in purification and in deepening the meditative experience initiated by Auralite-23. ♦
